

WE THINK ROSES

TRINITY FARMS is a 10 hectare rose farm founded in 1997, which grows and distributes top quality roses to a select group of customers in the US, Canada, Europe and Russia. TRINITY is designed to produce roses all year round rather than only in peak times for the yearly holidays. Despite this, we remain aware of the need to provide our customers with flowers for holiday seasons and we are able to increase a certain amount of our production without discrediting our goal of quality. We strive to maintain a select choice of varieties to ensure customer satisfaction.
